

RIDHI THAKKER

Salesforce Technical Consultant | 4+ Years Experience | 10x Certified

+91-9537039685 | thakker.ridhi@gmail.com | India | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Salesforce Technical Consultant with 4+ years at TCS, specialising in Apex, Lightning Web Components (LWC), and enterprise-grade integrations. Delivered 1,000+ critical Salesforce solutions across Service, Sales, and Commerce Clouds. Holds 10 Salesforce certifications including Platform Developer I, Administrator, Agentforce Specialist, and B2C Commerce Developer. Currently pursuing MTech in Data Science at BITS Pilani.

CORE COMPETENCIES

Salesforce Development: Apex, Lightning Web Components (LWC), Visualforce, SOQL, SOSL

Salesforce Clouds: Service Cloud, Sales Cloud, Commerce Cloud (B2C)

Integrations: REST APIs, MuleSoft, OmniStudio, Juspay, Qwikcilver, Slack

AI & Data Science: Predictive Modelling, EDA, Einstein AI, Agentforce, Prompt Engineering

DevOps & Tools: Git, GitHub, JIRA, Agile / Scrum, Data Migration

Other Technologies: JavaScript, SQL, Python, Tableau, Power BI

SALESFORCE CERTIFICATIONS (10X)

Across Development, Administration, AI, and Consulting disciplines

AI & Automation: Agentforce Specialist

Development: Platform Developer I, JavaScript Developer I, B2C Commerce Developer

Administration & Consulting: App Builder, Data Consultant, Administrator, Associate

WORK EXPERIENCE

Salesforce Engineer | Tata Consultancy Services, Ahmedabad

Full Time | 2022 – Present

- Resolved 1,000+ critical Salesforce issues adhering to enterprise SLAs, maintaining 99.5% uptime for mission-critical applications.
- Architected and delivered 30+ Apex classes, LWC components, flows, and validation rules to meet diverse cross-functional requirements.
- Reduced UI load times and responsiveness by 30% through optimised Lightning Web Components (LWC) development.
- Led Salesforce integrations with MuleSoft, Slack, Juspay & Qwikcilver — improving cross-platform data consistency by 40%.
- Implemented case routing and assignment rules in Service Cloud, cutting average case handling time by 30%.
- Migrated 1M+ records from legacy systems ensuring high data integrity and near-zero downtime.
- Built real-time dashboards for operational metrics using Power BI and Salesforce Reports, boosting team productivity by 20%.
- Maintained GitHub-based version control and CI workflows; authored knowledge articles that improved first-call resolution by 35%.
- Awarded 'Top Performer' in the Salesforce Business Unit for consistently exceeding KPIs and driving customer success.

PROJECT

AI-Driven CRM Optimization: Predictive Lead Scoring & Intelligent Agent Automation

- Designed an end-to-end Data Science pipeline to optimize CRM lead management, replacing static rule-based systems with ML-driven prediction.
- Built a supervised ML-based lead scoring engine (Logistic Regression, Random Forest, XGBoost) on public CRM datasets, using AUC-ROC and F1-Score for model selection.
- Engineered features from raw CRM data (response time buckets, interaction frequency scores) to improve lead conversion prediction accuracy.
- Developed an AI Agent Automation Framework inspired by Salesforce Agentforce and ReAct architecture, triggering contextual CRM actions based on data-driven lead scores.
- Applied full Data Science lifecycle — EDA, preprocessing, feature engineering, modelling, evaluation — using Python (scikit-learn, pandas, matplotlib).

EDUCATION

MTech – Data Science & Engineering | BITS Pilani (WILP) | Oct 2024 – Oct 2026

BE – Computer Engineering (CGPA: 9.37) | Shree Swaminarayan Institute of Technology, GTU | 2018 – 2022
